CLOUDKILAT

Datacenter Location:
Indonesia (a member of infinsys company)

Plus about cloudkilat (+) :

- **Interesting service and product plan**
- **Cheap Price for newbie users or small company**
- **24/7 Customer Service & Customer Support**
- **A good relation with local community such as KLIM**

Minus about cloudkilat (-):

- **It’s feature is limited, the cause is business purpose**
- **And further more it’s feature is just “enough”**
- **Only Available in Indonesia**

Feature

Kilat VM 2.0 SSD Start from Rp 90.000/Month

Kilat Hosting Start from Rp 50.000/month
Kilat Plesk VM + Plesk Panel Rp 350.000/month

Add-on feature

Panel kontrol, Apps management, SSL, Domain

Lokasi Datacenter :
czech, Italy, France, Germany, United Kingdom, Poland

Plus about arubacloud (+) :

- **runGlobally available across europe and america**
- **Free Trial for 10 Euro**
- **Add on services**
- **Cloud PaaS Jelastic***

Minus about arubacloud (-):

- **Frequently reported down**
- **Bad Customer Services**
- **The Service is making customer Go Away (by hostadvice.com)**

Feature

Cloud VPS Start from €2.79+VAT/month vmware
Cloud PRO Start from €2.79+VAT/month vmware/v-sphere (on-premiese cloud)
Jelastic PaaS & CaaS mulai dari €25.99+VAT/month Jelastic PaaS Cloud Platform

Add-on Feature :
Cloud Backup, Cloud object Storage 3S, Private Cloud, Cloud Monitoring

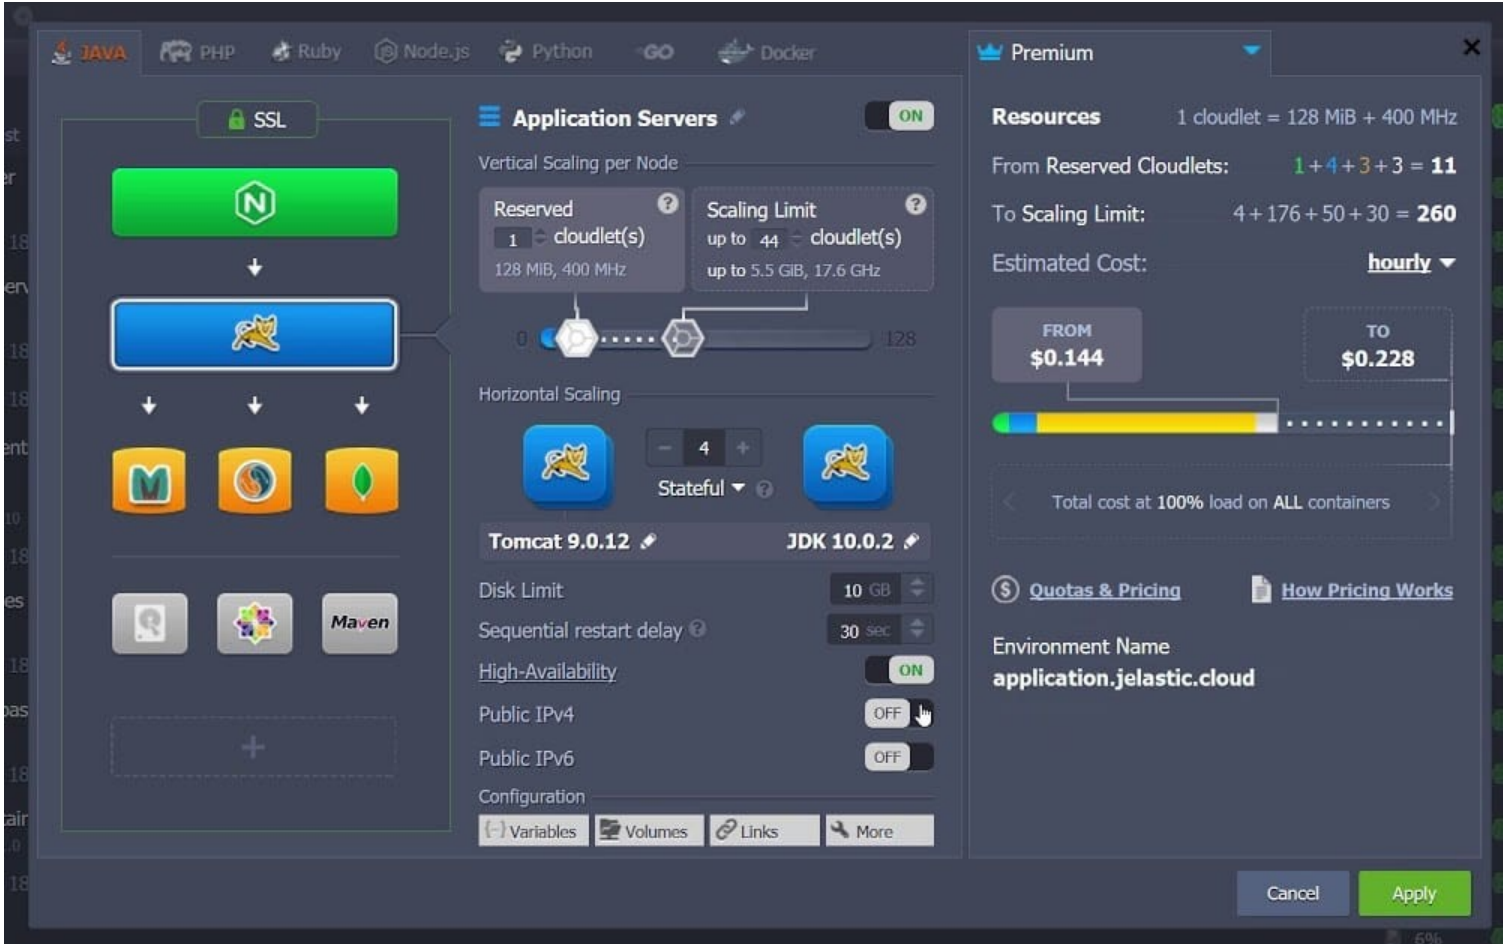
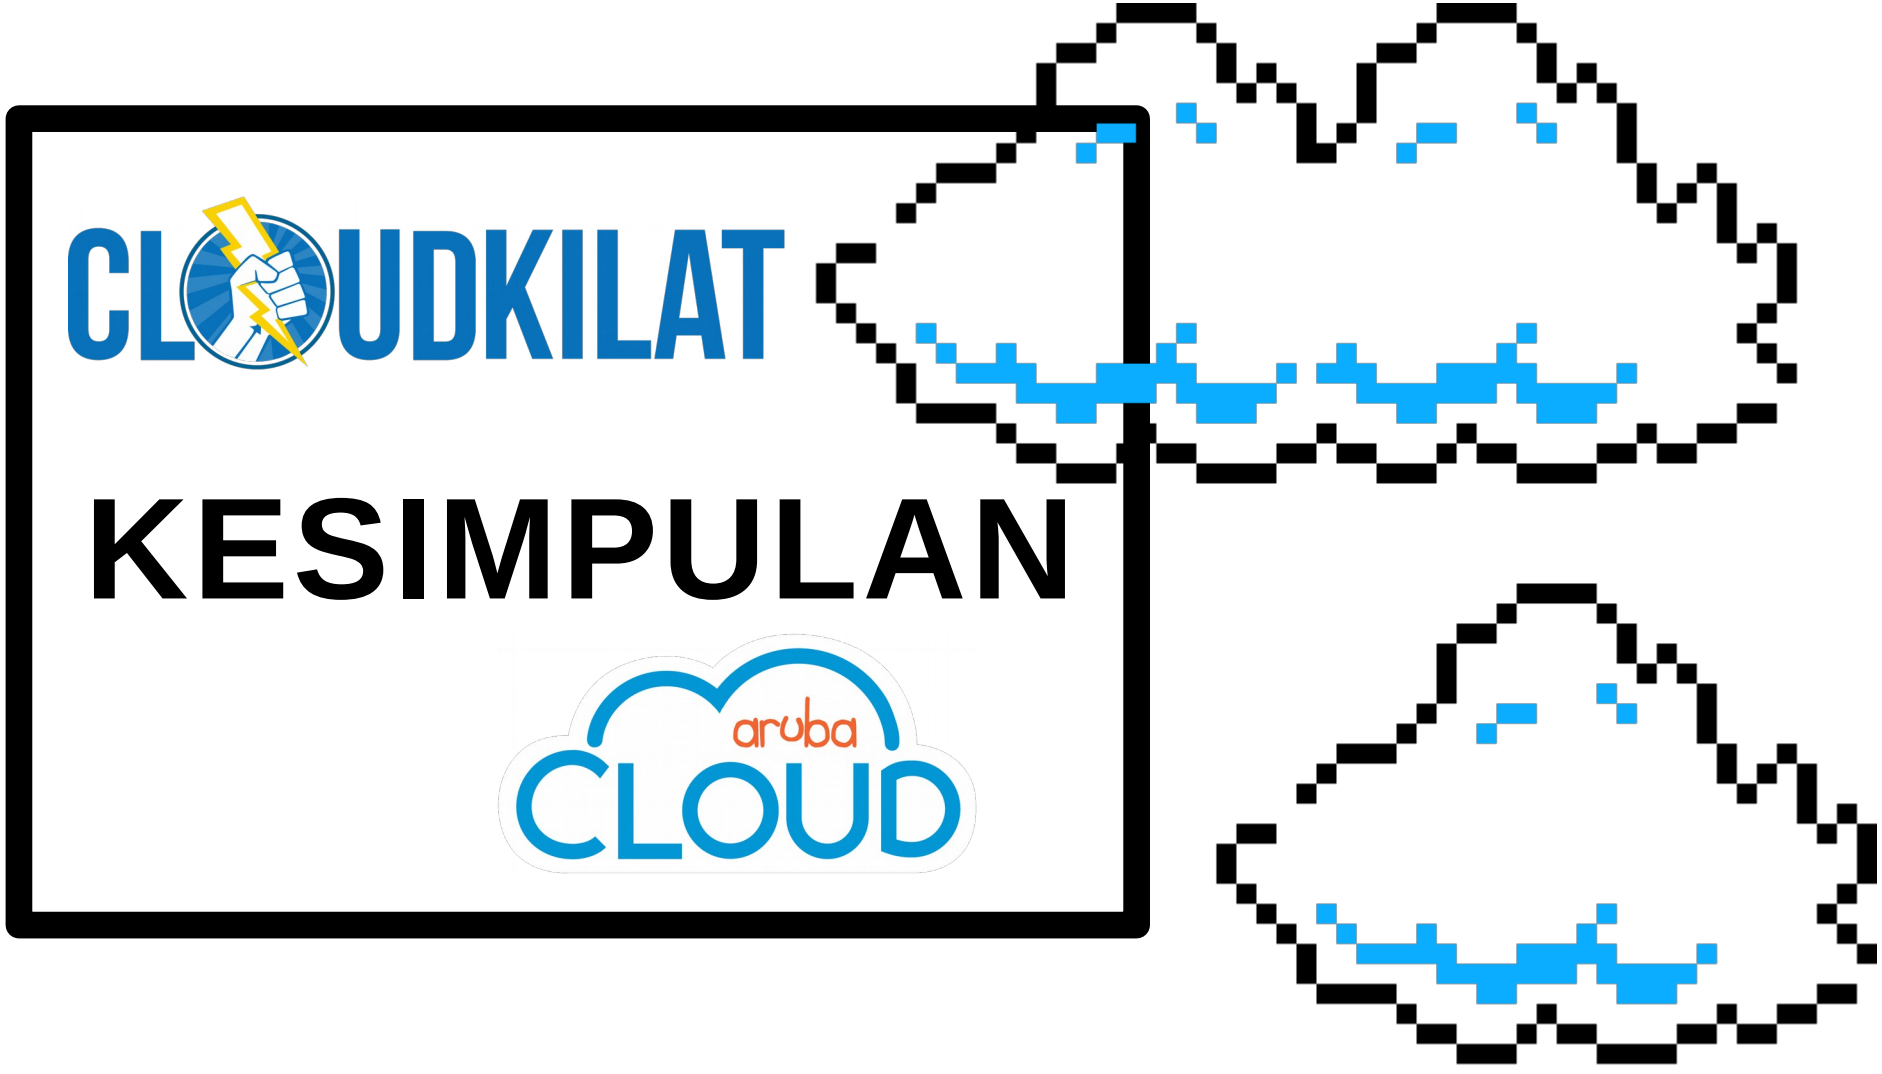
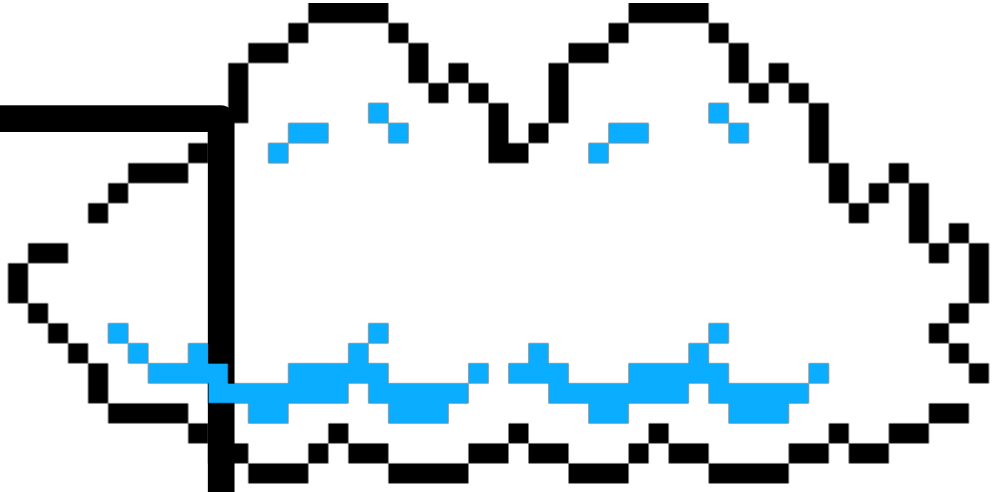
Jelastic





CLOUDKILAT
KESIMPULAN
aruba
CLOUD

From technical prespective aruba is the winner, but from business prespective cloudkilat is more efective

Both aruba and cloudkilat market is very competitive. Aruba starting to ambush asia market, mean while Cloudkilat is still consistent in local Indonesian market.


Terima kasih
